## EXPERIENCE

### **S01ve Cyber Solutions (s01ve.io) – Intern: Calgary, AB (Remote)**

- JULY 2021 – AUGUST 2021
  - collaboration with the Cyber Team led to the development and implementation of CyberSecure and OSCP courses. Attendance in classes facilitated learning and instructor assistance, while completion of the TryHackMe Cyber Security Basics course was achieved. Close collaboration with renowned Canadian security researcher Hank Fordham, featured on Dr. Phil, VICE News, NPR, and more, was maintained throughout.

      - Phone: +1(403)970-2863

### **Kinetek Media (kinetekmedia.com) – Web Developer: Spokane, WA**

- MAY 2022 – MARCH 2023
  - Key responsibilities included content updates, bug resolution, eCommerce product management, plugin maintenance, site security, and SEO optimization. I successfully led the recovery and cleanup efforts after a VPS server breach, implementing robust security measures such as stronger passwords, password managers, and two-factor authentication. I designed and developed over seven custom, responsive templates for diverse industries and created an in-house forum for DBA Apple Brides using bash scripting and bespoke HTML/CSS.
